**Sunday Reflection: 'A blessing on the man who puts his trust in the Lord.....he is like a tree by the waterside.....'**

The world is flush with a vast variety of tree species. Each tells its own story. Trees talk – of life. The oak spends a third of life growing, a third of life living and a third dying. The yew lives with a hollow heart, dying from the core outwards. The holly is forty years old – well settled – before it bears berries. The ash has the shortest yearly leaf life and so is more vulnerable. Trees are life giving. Reflect on the varieties of fruit they provide for human consumption. Almost half of the medicines that we use stem from plants that grow in tropical forests. Like us humans, trees need and consume large amounts of water. Water is their God-given means of survival. Large trees need up to 10,000 litters of water a year. The most nurturing place for a tree is near the water's edge. Jeremiah similarly reminds us in the First Reading to seek our nurturement from God who is the river of life and love.

**Week 4 – Final Preparation Theme:** Lent is almost here Getting Ready for Lent with **Baptised & Sent Lent** begins this week on Ash Wednesday. As we prepare to enter this sacred season, parishioners are invited to make use of Baptised & Sent, a Lenten faith resource available to all in the diocese. Whether used individually or with others, Baptised & Sent offers a gentle and prayerful way to reflect on our Baptism and our call to live our faith each day. All are welcome to take part. Resources and information can be found at [synod.ie](http://synod.ie).
